# Forward-Looking Statements

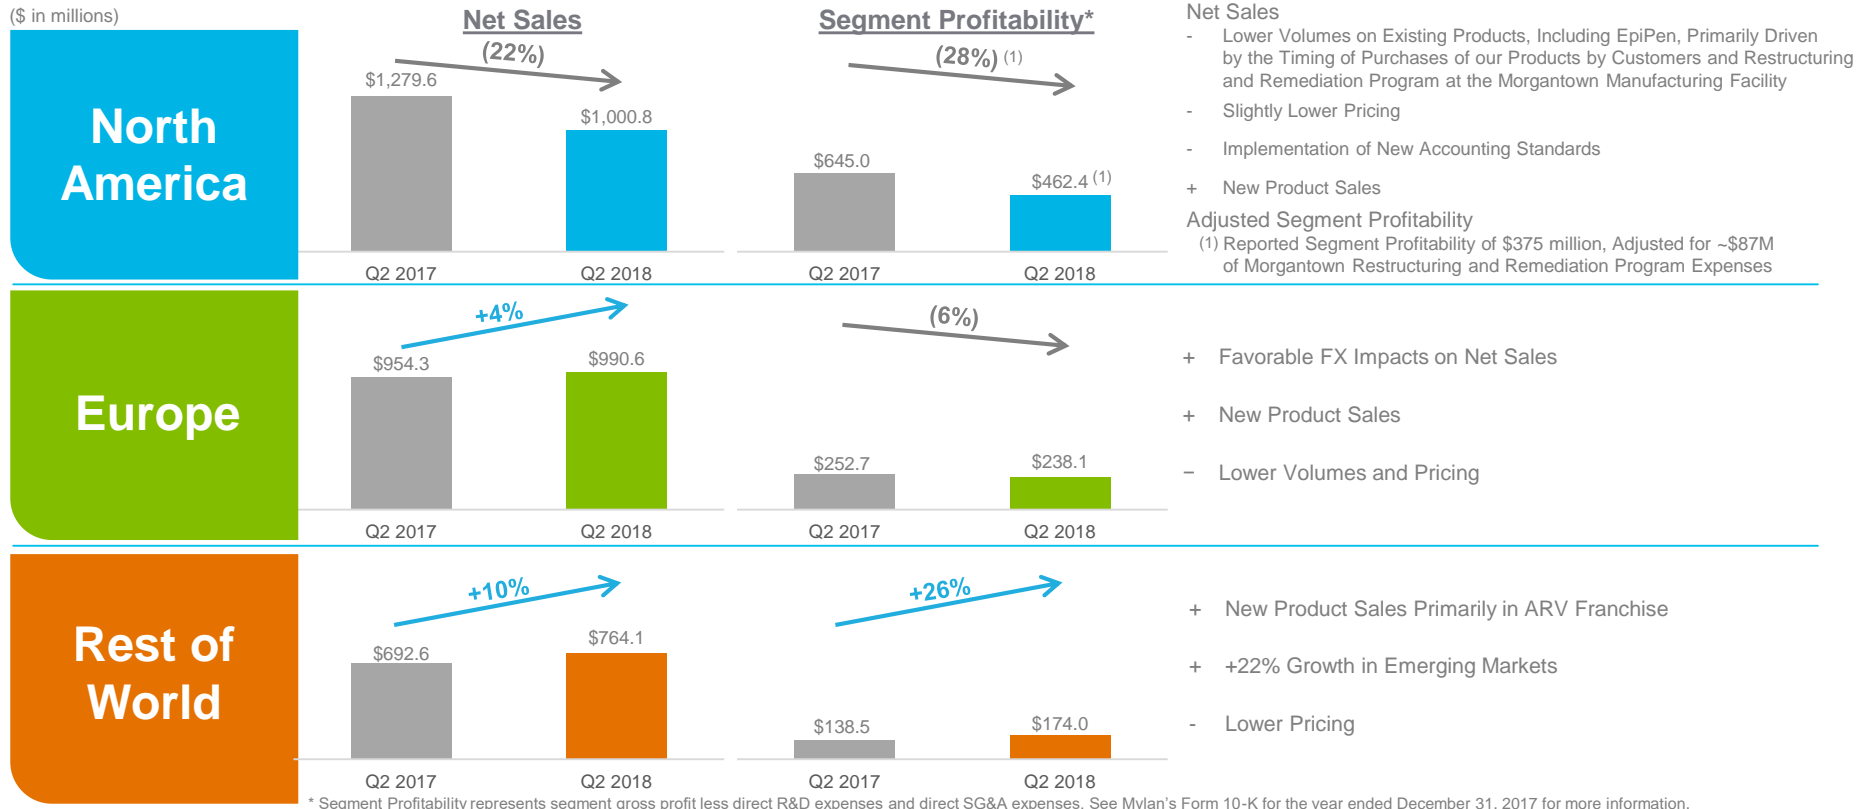

This presentation contains “forward-looking statements.” These statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements may include, without limitation, our revised 2018 financial guidance and any other statements about Mylan’s future operations, anticipated business levels, future earnings, planned activities, anticipated growth, market opportunities, strategies, competition, and other expectations and targets for future periods. These may often be identified by the use of words such as “will,” “may,” “could,” “should,” “would,” “project,” “believe,” “anticipate,” “expect,” “plan,” “estimate,” “forecast,” “potential,” “pipeline,” “intend,” “continue,” “target” and variations of these words or comparable words. Because forward-looking statements inherently involve risks and uncertainties, actual future results may differ materially from those expressed or implied by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to: actions and decisions of healthcare and pharmaceutical regulators; failure to achieve expected or targeted future financial and operating performance and results; uncertainties regarding future demand, pricing and reimbursement for our products; any regulatory, legal, or other impediments to Mylan’s ability to bring new products to market, including, but not limited to, where Mylan uses its business judgment and decides to manufacture, market, and/or sell products, directly or through third parties, notwithstanding the fact that allegations of patent infringement(s) have not been finally resolved by the courts (i.e., an “at-risk launch”); success of clinical trials and Mylan’s ability to execute on new product opportunities; any changes in or difficulties with our manufacturing facilities, supply chain or inventory or our ability to meet anticipated demand; the scope, timing, and outcome of any ongoing legal proceedings, including government investigations, and the impact of any such proceedings on our financial condition, results of operations, and/or cash flows; the ability to meet expectations regarding the accounting and tax treatments of acquisitions, including Mylan’s acquisition of Mylan Inc. and Abbott Laboratories’ non-U.S. developed markets specialty and branded generics business; changes in relevant tax and other laws, including but not limited to changes in the U.S. tax code and healthcare and pharmaceutical laws and regulations in the U.S. and abroad; any significant breach of data security or data privacy or disruptions to our information technology systems; the ability to protect intellectual property and preserve intellectual property rights; the effect of any changes in customer and supplier relationships and customer purchasing patterns; the ability to attract and retain key personnel; the impact of competition; identifying, acquiring, and integrating complementary or strategic acquisitions of other companies, products, or assets being more difficult, time-consuming or costly than anticipated; the possibility that Mylan may be unable to achieve expected synergies and operating efficiencies in connection with strategic acquisitions or restructuring programs within the expected time-frames or at all; uncertainties and matters beyond the control of management, including but not limited to general political and economic conditions and global exchange rates; and inherent uncertainties involved in the estimates and judgments used in the preparation of financial statements, and the providing of estimates of financial measures, in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) and related standards or on an adjusted basis. For more detailed information on the risks and uncertainties associated with Mylan’s business activities, see the risks described in Mylan’s Annual Report on Form 10-K for the year ended December 31, 2017, as amended, and our other filings with the Securities and Exchange Commission (the “SEC”). You can access Mylan’s filings with the SEC through the SEC website at [www.sec.gov](http://www.sec.gov) or through our website, and Mylan strongly encourages you to do so. Mylan routinely posts information that may be important to investors on our website at [investor.mylan.com](http://investor.mylan.com), and we use this website address as a means of disclosing material information to the public in a broad, non-exclusionary manner for purposes of the SEC’s Regulation Fair Disclosure (Reg FD). # Non-GAAP Financial Measures

This presentation includes the presentation and discussion of certain financial information that differs from what is reported under U.S. GAAP. These non-GAAP financial measures, including, but not limited to, adjusted gross margins, adjusted R&D as % of total revenues, adjusted SG&A as % of total revenues, adjusted earnings from operations, adjusted EBITDA, adjusted net earnings, adjusted EPS, adjusted net cash provided by operating activities, adjusted free cash flow, adjusted effective tax rate, adjusted segment profitability for North America and constant currency figures are presented in order to supplement investors' and other readers' understanding and assessment of the financial performance of Mylan N.V. ("Mylan" or the "Company"). In the Appendix, Mylan has provided reconciliations of such non-GAAP financial measures to the most directly comparable U.S. GAAP financial measures. Investors and other readers are encouraged to review the related U.S. GAAP financial measures and the reconciliations of the non-GAAP measures to their most directly comparable U.S. GAAP measures set forth below, and investors and other readers should consider non-GAAP measures only as supplements to, not as substitutes for or as superior measures to, the measures of financial performance prepared in accordance with U.S. GAAP.

## 2018 Guidance

Mylan is not providing forward looking guidance for U.S. GAAP reported financial measures or a quantitative reconciliation of forward-looking non-GAAP financial measures to the most directly comparable U.S. GAAP measure because it is unable to predict with reasonable certainty the ultimate outcome of certain significant items without unreasonable effort. These items include, but are not limited to, acquisition-related expenses including those related to the acquisition of Meda AB (publ), restructuring expenses, asset impairments, litigation settlements and other contingencies, including changes to contingent consideration and certain other gains or losses. These items are uncertain, depend on various factors, and could have a material impact on U.S. GAAP reported results for the guidance period.

- (a) The increase in purchase accounting related amortization is primarily due to the increase in amortization expense as a result of the full impact of certain product rights acquisitions which occurred in 2017, the current year impact of the 2018 product rights acquisitions and the IPR&D impairment charges of \$42.0 million and \$72.0 million during the three and six months ended June 30, 2018, respectively.
- (b) Acquisition related costs incurred in 2017 and through the six months ended June 30, 2018 consist primarily of integration activities.
- (c) For the three months ended June 30, 2018, approximately \$41.0 million is included in cost of sales, \$11.8 million is included in R&D, and \$23.6 million is included in SG&A. For the six months ended June 30, 2018, approximately \$45.4 million is included in cost of sales, \$16.7 million is included in R&D, and \$59.7 million is included in SG&A. Refer to Note 17 Restructuring included in Part I, Item 1 of the Form 10-Q for additional information.
- (d) The three and six months ended June 30, 2018 increase relates primarily to approximately \$56.0 million of certain incremental manufacturing variances and site remediation expenses as a result of the activities at the Company's Morgantown facility.
- (e) R&D expense for the three months ended June 30, 2018 includes two non-refundable upfront payments totaling approximately \$30.5 million for development agreements entered into during the quarter, and the remaining expense relates to on-going collaboration agreements, including Momenta Pharmaceuticals, Inc. ("Momenta"). For the six months ended June 30, 2018, R&D expense includes \$73.5 million related to four non-refundable upfront payments for development agreements entered into during the current period. The remaining expense relates to the on-going collaboration agreements, including Momenta. R&D expense for the three months ended June 30, 2017 includes \$8.7 million related to Momenta collaboration expense. For the six months ended June 30, 2017, R&D expense includes an upfront expense of approximately \$50.0 million related to a joint development and marketing agreement for a respiratory product, \$14.5 million related to Momenta collaboration expense, and other similar smaller agreements.
- (f) Increase for the three and six months ended June 30, 2018 primarily related to bad debt expense of approximately \$26.5 million related to a specific business interruption event for one customer.
- (g) Primarily related to mark-to-market losses of investments in equity securities historically accounted for as available-for-sale securities and the cumulative realized gains on such investments.
