Mylan Sponsors Drug Store News and Pharmacist Society to Provide a New Business Networking Platform for Pharmacy Schools and Students

PITTSBURGH and NEW YORK -- May 18, 2012--The Drug Store News Group, the Pharmacist Society and Mylan Inc. (Nasdaq: MYL), one of the world's leading generics and specialty pharmaceutical companies, are pleased to announce an exclusive sponsorship to expand membership opportunities at PharmacistSociety.com - an online forum that supports and enhances professional networks for U.S.-based retail pharmacists, professional organizations and pharmacy companies. Through Mylan's sponsorship of this program, pharmacy schools and students now will be invited to join the site and connect with established industry participants. The Pharmacist Society offers free, members-only access, encouraging collaboration, communication and knowledge sharing within a pharmacy-specific network.

Wayne Bennett, publisher of The Drug Store News Group, said: "Pharmacists continue to play an increasingly important role in the health care equation. They are at the front line of delivery in terms of providing access to medicine, continuity of care, patient monitoring, and disease management. Through the Pharmacist Society, and Mylan's sponsorship, we're excited to open this online community to future U.S. pharmacists and provide students and university programs a chance to engage with the industry's ongoing conversation."

Tony Mauro, president of Mylan North America and Mylan Pharmaceuticals, said, "At Mylan, we are committed to setting new standards in health care and providing high quality medicine to the world's 7 billion people. We believe pharmacists play a vital role in this mission. The Pharmacist Society provides access to a valuable network of resources that enhance the ability of pharmacists to do their jobs, and we are proud to support this important professional tool."

Since its launch in 2011, the Pharmacist Society has grown to include 45,000 registered pharmacists, and the extension of the site's membership to include the student and alumni bases of the nation's 130 pharmacy schools and colleges represents an opportunity to further expand the site's networking impact.

About Mylan

Mylan is a global pharmaceutical company committed to setting new standards in health care. Working together around the world to provide 7 billion people access to high quality medicine, we innovate to satisfy unmet needs; make reliability and service a habit, do what's right, not what's easy and impact the future through passionate global leadership. We offer a growing portfolio of more than 1,100 generic pharmaceuticals and several brand medications. In addition, we offer a wide range of antiretroviral therapies, upon which approximately one-third of HIV/AIDS patients in developing countries depend. We also operate one of the largest active pharmaceutical ingredient manufacturers and currently market products in approximately 150 countries and territories. Our workforce of more than 18,000 people is dedicated to improving the customer experience and increasing pharmaceutical access to consumers around the world. But don't take our word for it. See for yourself. See inside. mylan.com
