

Mylan Launches First Generic Version of Doryx® 150 mg

Court Rules in Favor of Mylan in Warner Chilcott's Patent Infringement Suit

PITTSBURGH, April 30, 2012 /PRNewswire/ -- Mylan Inc. (Nasdaq: MYL) today announced that its subsidiary Mylan Pharmaceuticals Inc. has launched Doxycycline Hyclate Delayed-release (DR) Tablets USP, 150 mg, following a favorable decision by the U.S. District Court for the District of New Jersey in a patent infringement lawsuit brought by Warner Chilcott. The Court held, after trial, that Mylan's product does not infringe the subject patent. Mylan is shipping product immediately.

Doxycycline Hyclate Delayed-release (DR) Tablets USP, 150 mg is the generic version of Mayne Pharma's Doryx® 150 mg product (marketed by Warner Chilcott), and is a tetracycline-class antimicrobial.

Doxycycline Hyclate DR Tablets, 150 mg, had U.S. sales of approximately \$264.1 million for the 12 months ending Dec. 31, 2011, according to IMS Health.

Mylan Inc. ranks among the leading generic and specialty pharmaceutical companies in the world and provides products to customers in more than 150 countries and territories. The company maintains one of the industry's broadest and highest quality product portfolios supported by a robust product pipeline; operates one of the world's largest active pharmaceutical ingredient manufacturers; and runs a specialty business focused on respiratory, allergy and psychiatric therapies.
